Mammoth Lakes CA PD

Overview Package & Features Policies Settings Authentication

Settings

Customize standard practices and preferences for your organization.

Search

Investigative Purpose

Offense Type, Case Number & Search Reason configuration.

Edit

Statewide Networks

Statewide network access is reciprocal: license plate data collected by your cameras and searches your agency performs will be accessible to all agencies enrolled in the same network. All searches performed across Statewide Networks will appear in other participating agencies' audit logs and may appear in Analytics/Insights.

Access Statewide Network

Disabled

Alerts & FlockOS

Hotlist Plate Purpose

Reason and Case Number configuration for Custom Hotlist and Freeform alert entries.

Edit

State and Federal Hotlist Sources

Enable authorized hotlist sources for users' alert feeds. Customize source and topic access by role in Admin [Alerts and FlockOS](#).

California SVS NCMEC Amber Alert

Access to change Hot List Sources is restricted. Please contact your CSM for further assistance.

Treat Unknown Plates for Hot List Alerts As...

Choose a default state(s) to apply when a license plate alert does not include a state value.

California

Access to change support for Unknown Plates is restricted. Please contact your CSM for further assistance.
